

RAMSIDER

RAMSIDER INNOVATIVE HOOKAH FOR HORECA

MARKET CHALLENGE

Issues with conventional hookahs

- ✓ **Maintenance**
Complicated cleaning and ventilation issues
- ✓ **Labor costs**
Need for full-time hookah attendants and additional staff , personnel training costs
- ✓ **Safety**
Hot coals, smoke and elevated fire risk
- ✓ **Time**
Lengthy setup and service process
- ✓ **Space**
Dedicated preparation areas required
- ✓ **Quality**
Difficulty in maintaining consistent flavor experience

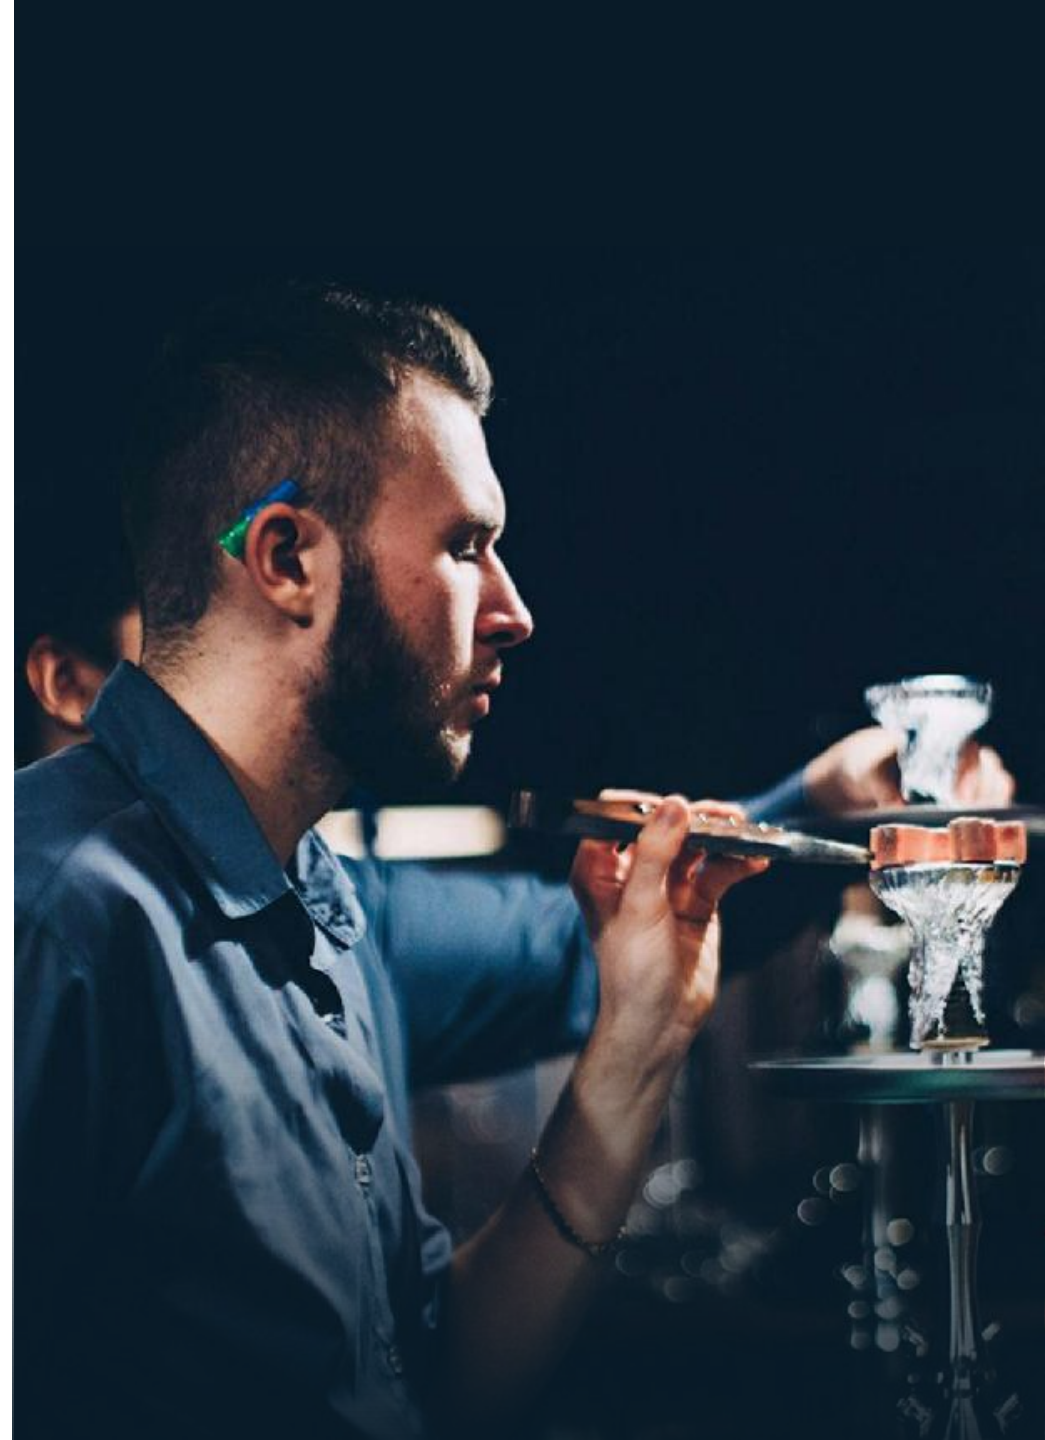

Consequences for business owners

Low profit margins

High operating costs

Limited scalability

THE RAMSIDER SOLUTION

Ramsider is a unique, comprehensive ecosystem for the electronic hookah industry, comprising the following components:

- ✓ A fully automated station with a capacity of up to 18 devices, featuring a built-in system for cleaning and sterilizing bowls and mouthpieces.
- ✓ A built-in battery charging system, automatic heat-up, and capsule storage.

Ramsider Hookah Advantages

Heat-not-Burn Technology

- No carbon monoxide, coals, or smoke
- Eco-friendly blends without carcinogens

Ready-to-Use Concept

Controlled via proprietary software integrated with the Ramsider ecosystem, requiring minimal staff involvement

Business Analytics and Customization

- Equipment status tracking
- Analysis of station and flavor popularity
- Unique customization of lighting and sound

FOR PARTNERS (VENUES)

Financial impact

Raises venue profitability by increasing the average transaction value and revenue

Audience attraction

Drives new customer acquisition and boosts foot traffic

Operational efficiency

Robotic system performs 90% of the work without permanent staff

Advanced technology and control

Management, analytics, and full control via the app

Safety and clean operation

No fire or coals; capsule technology eliminates mess

Flexibility and scalability

Easily integrates into any location with various cooperation models

Premium positioning

Enhances venue image and creates a premium-service atmosphere

Rapid deployment

Operational within hours, no construction, water, or assembly required

FOR CUSTOMERS

Pure and rich flavor

Two-level heating without coals or soot reveals a full aroma

Stability and control

Over an hour of consistent hookah experience thanks to smart heating algorithms

Safety and sterility

No fire or glass; steam treatment ensures hygiene

Eco-friendly and natural

Proprietary eco-blends without smoke or synthetic additives

Speed and convenience

Ready to serve in 8 minutes; compact and easy to use

Contemporary design

Minimalist style with interactive screen and lighting

Wide flavor assortment

Localized selection based on regional characteristics and preferences

Heating mode selection

Laboratory selection of the optimal heating mode to unlock flavor potential

PRODUCT RANGE

B2B Monetization Channels

- ✓ **Hookah stations**
Innovative electronic hookah stations designed for commercial use (from 4 to 18 Ramsider devices)
- ✓ **Tobacco blends**
Exclusive tobacco blends in convenient capsules, tailored to the diverse tastes of patrons
- ✓ **Modern software**
Digital platform for device management and process optimization, enhancing operational efficiency and visitor comfort
- ✓ **Accessories**
Premium add-ons and functional solutions for customization and improving the hookah experience in venues

PRODUCT RANGE

Ramsider Mini Hookeria Hookah Station

Purpose

Mass solution for franchises and venues with limited space. Optimal for cafés, lounges, bars, small restaurants, food courts, and locations where speed, compactness, and ease of service are critical.

Available only to approved partners with verified venue potential. No franchise fee.

PROJECT DEVELOPMENT PROSPECTS

Premium hookah segment

Strong growth potential in the luxury segment, targeting elite venues and private clients.

Product diversity

Wide assortment of capsules and device collections (including gold-plated lines), both standard and premium.

Software support

Mobile app offering unique flavor mixes, sales of blend collections (natural and synthetic), and personalization features

Innovation

Gold-plated devices already available, underscoring status and durability.

Cross-industry potential

Ramsider technologies are applicable beyond the hookah industry (tobacco blends, aromatherapy, essential oils, legal cannabis, SPA & wellness, pharmaceutical oils), opening opportunities for integration into adjacent markets and creating new growth sources.

Further opportunities

Integration with the RAMS Group ecosystem for cross-promotion, loyalty program with bonuses and discounts via the app, and expansion of eco-initiatives with recyclable materials.

RAMSIDER

CERTIFICATION

RAMSIDER devices have successfully passed all required tests and confirmed compliance with international standards.

EMC

electromagnetic compatibility

RoHS

restriction of hazardous substances

RED (Radio Equipment Directive)

compliance

Safety certificate
